

Apprenticeship opportunities at EY

We are one of the biggest professional services firms in the world!

We employ over **365,000** amazing people worldwide.

We have **700** offices in **150** countries.

With offices across the UK, from Belfast to Birmingham, Aberdeen to Southampton, you can take your career wherever you want to.

About us

We are a Professional Services firm, but what does that mean?

We help organisations and clients be better using business, finance and technology. Through our four business areas - Assurance, Strategy and Transactions, Consulting and Tax, we work to help businesses make better decisions whilst fostering confidence and trust in the world's capital markets.

EY's purpose is to build a better working world.

Apprenticeships

Our apprenticeships start at Level 3* and go all the way up to Level 7 Masters level apprenticeships.

If your pupils are interested in working in business, then we may have an apprenticeship for them.

Please visit our website for more information:

ey.com/uk/apprentices

*In Scotland our apprentices work towards SCQF Levels 6 - 11

“

Even in my first year in Assurance I was involved in important client meetings and discussions with people at some of EY's largest clients.

Emma
Apprentice, Assurance

Why an EY apprenticeship?

1. Build skills knowledge and experience

Due to our apprentices working in one of the world's biggest professional services firms to build their skillset, they will have exposure to real clients to help them build their knowledge of various industries and speak to people from around the world. Apprentices at EY are given exposure to the best opportunities for growth and development.

2. Earn money and learn

All EY apprentices will work towards achieving industry recognised qualifications whilst working. The programme is structured so that apprentices study for **20%** of their apprenticeship and work the remaining **80%**. Alongside working all apprentices earn a competitive salary, starting from **£19,500***.

3. Support

All EY's apprentices get support transitioning from education to the working world. From day one all apprentices are paired with a second year apprentice who will support them with learning all about their new role at EY. They will also get support from our dedicated apprenticeship team throughout their apprenticeship.

*Depending on location

How to prepare students for an EY apprenticeship?

Here are some tips:

- ▶ Talk to your students about apprenticeships - what they are and why they should consider them.
- ▶ Encourage your students to explore our website to find out more information about the apprenticeships we offer: ey.com/uk/apprentices
- ▶ Tell students about our upcoming events - these can be found on our website: ey.com/uk/events
- ▶ Encourage your students to apply sooner, rather than later.
- ▶ Work with us to promote our opportunities - if you're interested in us coming into your school please email: eyrschools@uk.ey.com
