Careers within Industry Talks

And additional supportive information and knowledge for your view.

Between November and February each year, the Careers Department co-ordinate Careers Talks for students in years 10-13. Each year during this period, there will be a variety of careers talks to capture as much interest for as many of our pupils as possible.

Due to covid, employers, speakers and presenters that represent a particular career or industry cannot join SHS to give face to face information at this time.

Please find in the next few slides, alternative ways to select and view careers industry talks within free lessons/study periods or at home in your own personal time.

From Personal Trainers, Leaders in Sport, Presenters, Nurses and Journalists to NASA, BP and the Bank of England, there should be something for everyone...
